

SPECIFICATION SHEET
PRODUCT TYPE: Broad acre herbicide

Product Name:

WSD Glyphosate 360.

Active Constituent:

Glyphosate 36 % (360 g/L).

Solution Type:

Brown in color.

Purpose Product is Registered for:

This product is registered as a broad spectrum weed killer and as an aid to clear fields of any undesirable plant matter.

Effective Against:

Annual and Perennial weeds. Refer to label and booklet for specific types.

Dosage Chart:

Refer to label below. Contact WSD for product booklet.

Advice on use:

Do not spray on desirable plants. This product is specially formulated to not be harmful to frogs within recommended use guidelines.

Registration Status:

Registered with APVMA.

Sizes:

1L, 5L, 20L

Back Label:

CAUTION
 KEEP OUT OF REACH OF CHILDREN
 READ SAFETY DIRECTIONS BEFORE OPENING OR USING.

WSD

Glyphosate 360
 HERBICIDE

ACTIVE CONSTITUENT: 360g/L GLYPHOSATE
 present as the isopropylamine salt

GROUP M HERBICIDE

A non-residual herbicide for the control of a broad range of Annual and Perennial Weeds

IMPORTANT: READ ATTACHED BOOKLET BEFORE USING THIS PRODUCT

Contents: 1 LITRE

RESISTANT WEEDS WARNING: WSD GLYPHOSATE 360 is a member of the glyphosate group of herbicides. Its mode of action is to inhibit the EPSP synthase. For weed resistance management WSD GLYPHOSATE 360 is a Group M herbicide. Some naturally occurring weed biotypes resistant to WSD GLYPHOSATE 360 and other Group M herbicides may exist through normal genetic variability in any weed population. The resistant individuals may eventually dominate the weed population if these herbicides are used repeatedly. These resistant weeds will not be controlled by this product or any other Group M herbicide. Since the occurrence of resistant weeds is difficult to detect prior to use, Western Stock Distributors accepts no liability for any losses that may result from the failure of this product to control resistant weeds.

PROTECTION OF CROP, NATIVE AND OTHER NON-TARGET PLANTS: DO NOT apply under weather conditions or from spraying equipment that may cause spray to drift onto nearby susceptible plantings, cropping lands or pastures.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT: DO NOT contaminate streams, rivers or waterways with the chemical or used containers. When controlling weeds near water, refer to label directions to minimise the entry of spray into the water.

PROTECTION OF LIVESTOCK: There is no withholding period for grazing stock, but to enable the product to be efficiently absorbed by sprayed vegetation, it is recommended that livestock be kept clear of treated annual weeds for one day after spraying, and treated perennial weeds for seven days after spraying. For certain plants known to be toxic to stock, it is advisable to keep livestock away until complete browning occurs.

STORAGE AND DISPOSAL: Do not store the product in galvanised steel or unlined steel containers, as the product may react to produce hydrogen gas, which can form a combustible gas mixture that can be flamed by ignition sources. Store in the closed, original container in a cool, well-ventilated area. Do not store for prolonged periods in direct sunlight. Tightly and preferably pressure rinse containers before disposal. Add rinsings to spray tank.

Do not dispose of undiluted chemicals on-site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush, or puncture and bury empty containers in a local authority landfill. If no landfill is available, bury the containers below 500mm in a disposal pit specifically marked and set up for this purpose, clear of waterways, desirable vegetation and tree roots. Empty containers and product should not be burnt.

For refillable containers: Empty contents fully into application equipment. Close all valves and return to point of supply for refill or storage.

SAFETY DIRECTIONS: Product will irritate eyes and skin. Avoid contact with eyes and skin. When preparing the product for use, wear elbow-length PVC gloves and face shield or goggles. When using controlled droplet applicator, wear protective waterproof clothing and impervious footwear.

After use and before eating, drinking or smoking, wash hands, arms and face thoroughly with soap and water. After each day's use, wash gloves, face shield or goggles, and contaminated clothing.

FIRST AID: If poisoning occurs, contact a doctor or Poisons Information Centre (Phone 13 11 26).

MATERIAL SAFETY DATA SHEET (MSDS): Additional information is listed in the Material Safety Data Sheet, which can be obtained from the supplier.

CONDITIONS OF SALE: All Western Stock Distributors products are of a high quality, being subjected to rigid quality control. The manufacturer, however, is unable to control the product's subsequent handling or use or the circumstances of each handling or use. This product is sold on the express condition that neither the manufacturer nor the distributor is under any liability for any loss or damage that may arise through such handling or use. If these conditions are unacceptable the container should be returned unopened for credit.
