

## SPECIFICATION SHEET

# WSD KEYMIN

### Product Description

WSD KEYMIN is a broad spectrum mineral supplement for ruminant livestock and is an aid in managing selenium, cobalt or copper deficiencies.

### Type of Preparation

WSD KEYMIN is a solution to be added to water or administered orally containing chelated mineral nutrients: (see existing list)

### Indications

To correct imbalances or deficiencies of minerals in cattle, sheep and goats. The use of chelated minerals ensures their availability to the animal when administered orally. A high quality supplement to be administered on an intermittent basis in water or dosed orally when:

- a deficiency of one or more minerals might be expected or
- to aid in digestion by rumen microbes when fodder low in one or more inorganic nutrients is being consumed by sheep, cattle or goats.

**Milking sheep, dairy cattle & dairy goats:** Suitable for use in animals producing milk for human consumption.

### Dosage

Always refer to the label. The dose rate is according to body weight range. This product may be added to drinking water so that animals are dosed at the label rate or is suitable for injection into stock water supplies by metered devices.

If mixed with water, it is preferable to administer the required dose over 2 to 3 days until the recommended total average dose is received by each individual animal.

Further doses may be indicated at intervals of 2 to 4 weeks during the period when supplementation is required.

### Advice on use

- WSD KEYMIN should be administered undiluted when drenching sheep, cattle or goats.
- WSD KEYMIN is used to supplement the diet of ruminants, particularly on mature dry feed, when moderate to high levels of grain are being fed, or when grass pastures are growing rapidly.
- This product should not be administered at a rate greater than recommended on the label.
- If this product is added to water there is no need to train or adapt animals to consuming WSD KEYMIN.
- It is recommended that WSD KEYMIN should not be mixed with other oral drenches. Do NOT mix with preparations containing levamisole.
- Goats may be dosed at the same rate as sheep.
- Care should be exercised if copper bullets have been administered or if livestock are grazing plants likely to cause liver damage.
- WSD produces a range of mineral supplements for different purposes and situations including WSD KEYMIN, WSD FACTOR G and WSD HYTONE.

### Withholding periods

**Meat withholding:** Nil

**Export slaughter interval:** Nil

**Milk withholding:** Nil

**Wool withholding:** Nil

### Shelf Life

24 month shelf life from date of manufacture

### Sizes Available

20 litre Drum

# Keymin

**POISON**  
Keep out of reach of children  
Read Safety directions before opening or using  
For animal treatment only

Chelated trace element supplement for sheep and cattle to supplement diets where mineral levels may be low.

### ACTIVE CONSTITUENTS:

- 20 mg/L Chromium as Lignosulfonate
- 6.40 g/L Copper as Lignosulfonate
- 1.10 g/L Cobalt as Lignosulfonate
- 8.50 g/L Zinc as Lignosulfonate
- 3.90 g/L Magnesium as Lignosulfonate
- 0.03 g/L Iron as Lignosulfonate
- 6.20 g/L Manganese as Lignosulfonate
- 0.03 g/L Boron as Lignosulfonate
- 3.20 g/L Phosphorus as Lignosulfonate
- 1.00 g/L Selenium as Organic Selenium
- 1.60 g/L Calcium as Lignosulfonate
- 12.2 g/L Sodium as Lignosulfonate
- 42.5 g/L Sulfur as Lignosulfonate
- 200 g/L Crude protein
- 65.7 g/L Glucose

### DIRECTIONS FOR USE:

Make sure contents are well mixed by shaking container prior to use. Ensure correct drenching rates are followed and avoid injury to livestock by maintaining a smooth drenching nozzle.

NO WITHHOLDING PERIOD APPLIES WHEN USING THIS PRODUCT ALONE.

WARNING THIS PRODUCT MUST NOT BE APPLIED AT A RATE GREATER THAN THE AMOUNT SHOWN ON THE LABEL.

NOT TO BE USED FOR ANY PURPOSE OR IN ANY MANNER CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

### SAFETY DIRECTIONS:

Poisonous if absorbed by skin contact or swallowed. Will irritate the eyes and skin. Avoid contact with eyes and skin. When opening the container or using the product wear rubber gloves. If product on skin, immediately wash area with soap and water. If product in eyes, wash it out immediately with water. After use and before eating and drinking or smoking, wash hands, arms and face thoroughly with soap and water.

### FIRST AID:

If poisoning occurs, contact a doctor or Poisons Information Centre. Phone in Australia 13 11 26. If skin contact occurs, remove contaminated clothing and wash skin thoroughly.

### DISPOSAL:

Triple or preferably pressure rinse. Do not dispose of unused chemicals on-site. Break, crush or puncture and bury containers in a local authority landfill. If no landfill is available, bury the containers below 500mm in a purpose clear of waterways, vegetation and roots. Empty containers and product should not be burnt.

### STORAGE:

Store below 30°C. (Room Temperature) in original container in a dry place. Protect from light. Keep container well closed.

### CONDITIONS OF SALE:

Western Stock Distributors shall not be liable for any loss, injury, damage or death whether consequential or otherwise sustained by the user of this product. The supply of this product is on the express condition that the purchaser does not rely on Western Stock Distributors or any other person dealing with this product as at his own risk absolutely. No representative of Western Stock Distributors has any authority to act to alter these conditions. **Manufacturer:**
